HEALTH OFFICER'S REPORT

During the past year Henniker had but two cases of Whooping Cough but an epidemic of Measles, none of which was serious.

Quarantined but two houses during the season. I got milk from eight different dairies and sent it to the Laboratory of Hygiene to be analyzed. It was found to be first class. I got water from six places and sent it to the Laboratory of Hygiene.

I recorded sixteen vaccinations. There were sixty-nine children immunized against Diphtheria, thirty-one were preschool age and thirty-eight were school children. I put up fifty-seven Measles Cards where the disease existed and later removed them. I had two complaints about open sewers, investigated and had the cause removed. Inspected one hospital and two nurseries and signed their licenses. Disinfected one place.

Respectfully submitted,

F. H. CLEAVELAND,

Health Officer.

The Brick school now has a record of two years without a single absence, and only one case of tardiness. I doubt if any school in the State can claim so good a record.

Henniker's school enrollment, especially at the Central school, is steadily increasing.

HEALTH OF SCHOOL CHILDREN

For several years, little or no mention of this subject has been made in these annual reports. Miss Nichols, our school nurse, is faithfully performing her duties, and as a matter of school routine yearly examinations are made and many defects of eyes, teeth, etc., corrected. Milk provided by the Federal Government is a helpful factor in building strong bodies for our children. Recently an audiometer test was given in all the schools. This is an accurate method of determining how well a child can hear. A few defective ears were found, and steps are being taken to correct them wherever possible.

OUR HIGH SCHOOL

One change in curriculum, affecting the junior high years, has been made. Time heretofore devoted to geography and history as separate studies is now spent on a course called social science; a study which combines the three subjects of history, geography, and civics in an effective and interesting way.

We are proud of our fine new gymnasium, the gift of the Leander Cogswell estate, and are making constant use of it. Much enthusiasm for the game of basketball is being shown, especially among the junior high school girls. We try to economize on the expense of lighting by scheduling practices chiefly during daylight hours.

Our regulations also permit no pupil to enter the gymnasium at any time unless a teacher is there on duty.

A special study is being made this winter, by the teachers and superintendent, of the reading abilities of our high school students. Reading is the basis of all successful high school work, and a poor reader is under a serious handicap. We hope as the result of our study to give more effective help, to those who need it most, in understanding what they read.

Mr. R. H. Leavitt, the State High School Agent, made his annual visit to us in February, and commended the work of the teachers and deportment of the pupils.

TEACHERS' SALARIES

In order to keep within the appropriation made in 1933 for the current school year, the salaries of our teachers were cut about 14% from last year's figures, which were already below the average of salaries paid elsewhere. Our schedule of salaries is now among the very lowest in the State. For example, by actual count, there are exactly three teachers in New Hampshire working for less than our rural teachers are today.

Economists claim that the process of inflation now in progress is bound to increase prices, and to work the greatest hardship to salaried people. I hope the voters of Henniker will be willing to provide for our teachers during the coming year, salaries not quite so near the bottom of the list.

ADULT EDUCATION

As part of the Federal Emergency Relief program, unemployed teachers are being given work this winter teaching adults in the evening. In Henniker, classes

are being started in woodworking, auto mechanics, mechanical drawing, home economics, business arithmetic, economics, basketry and English. These classes, open to all except pupils in local schools, will be maintained through the rest of the year, provided that the membership in each group does not drop below six.

OUR REORGANIZED SUPERVISORY UNION

In accordance with the economy measure enacted into law at the last session of the General Court, the school districts of the State were rearranged for purposes of school supervision into larger unions, in order to dispense with the services of five superintendents. The schools of Weare were taken from this union, and three new districts to the north added. This union, known as No. 26, now comprises Henniker, Hopkinton, Dunbarton, Bradford, Newbury and Sutton.

CONCLUSION

We of the schools are appreciative of the helpful criticism, the willing co-operation, and the pleasant associations with parents and citizens during the past year.

Respectfully submitted,

ALMON W. BUSHNELL,

Superintendent of Schools.
